

CLUB UPDATE

With the 2025 season now in the rearview mirror, we would like to take one more moment to reflect back on what was certainly a fantastic year and thank all of our visitors for their continued support!

It has been our pleasure serving you in 2025 and we are very much looking forward to all of the fun and exciting changes we have in store for 2026. One such thing being the introduction of this very newsletter!

Aptly named ***The Tee Sheet***, this newsletter shall serve as convenient resource for our members & guests to receive an overview of all the latest club news!

UPCOMING EVENTS

- 1/8- Winter Sim-League Begins
- 1/10- Bear/Packer Watch Party
- 2/7- Private Event (*Mousie's*)
- 2/8- Super Bowl Watch Party
- 2/14- Valentines Dinner Date

A BIT OF HISTORY

When founded in 1893, the Freeport Club offered only 6 holes of golf before expanding to 18 holes in 1913.

Golf Tip

The off-season is the perfect time to assess the state of your overall golf game. Utilize the winter months to set goals for the upcoming season and then take the necessary steps to reach those goals.

Here are a few examples to help get you started:

- Consider equipment upgrades.
- Improve your flexibility.
- Utilize simulators to get off-season swings in.

Mousie's on the Blvd.

And the improvements just keep on coming...

Starting the first week of January our staff will begin renovating the ladies restroom. While we are excited to get this much needed project underway, please note that we will need to redirect customers during construction.

Stay tuned!

Turf Talk

While the golf course itself may take a well-deserved slumber during the off-season, turf management is still top of mind throughout the colder months.

From equipment maintenance tasks such as oil changes and reel grinding, to agronomical plans like fertilizing and fungicides, remaining diligent and organized in these areas is critical so that maintenance crews can hit the ground running come spring and provide you with the best playing conditions possible.

Speaking of colder months...did you know that snow cover can do wonders for a golf course? Its true! So while we may not always enjoy having snow around, it serves as a protective blanket for our summertime playground... insulation if you will.

Exposed turf grass can be susceptible to ice build up which can lead to snow mold & turf loss! Let it snow... for now anyway!

An introduction to “Ticketed Events”

Ticketed events? What does that even mean?

As so many of you already know, we pride ourselves on providing the Freeport community with a place where you can kick back, relax and have fun!

And while so many of you have already enjoyed all the great things **The Freeport Club** has to offer, I am here to tell you that we are just getting warmed up!

That said, we are beyond excited to announce that in an effort to help you plan your **FUN** in 2026, we will soon be releasing our **annual event schedule** that will outline all of our events (*golf and social*) for the year!

The **event schedule** will include a number of “**open events**” as well as a number of “**ticketed events**” for you to choose from.

There is sure to be something for everyone and we are looking forward to another fun and exciting year!

So what is the difference between the two types of events?

Simply put... it all comes down to vibe!

Open Events: Think low-key, void of registration fees/deadlines and more loosely structured.

Ticketed Events: Think participation based, registration fees/deadlines will apply and more tightly structured.

In the end, we are striving to provide you with a wide variety of fun and memorable experiences. And when it comes to fun, we want **The Freeport Club** to be the very first place you think of!
